## Dental Care Difficulties

As you all know, many barriers exist for people with disabilities to access good dental care, and untreated dental problems can and do lead to serious medical conditions. House Bill 692-FN has been introduced to provide dental benefits to Medicaid recipients.

ABLE Nashua is collecting stories about the difficulties adults with disabilities have accessing dental care.

Please consider emailing your story to [info@able.org](mailto:info@able.org) or calling (603) 878-0459 for support recording your story.

## System of Care Survey

Students of the UNH Institute on Disabilities Leadership Series are working on a project to inform the Bureau of Special Medical Services (BSMS). BSMS wants to learn how to improve the system for children and families and is implementing the Standards of Quality for Family Strengthening and Support that

includes a standard around family-centeredness.

BSMS is seeking a recommendations for developing a statewide advisory body for the system of care for Children and Youth with Special Health Care Needs (CYSHCN) and their families.

Your experience and input is crucial in creating a family centered support system

that works for all. Please take a moment to answer [this survey](#) to help us understand how you are affected by these services and how we may be able to improve the system statewide. In order to allow us ample time to process the survey, please respond no later than February 15th.

The Leadership Series group will also be conducting in-person interviews to create a documentary that will be presented to the Bureau of Special Medical Services. Please e-mail [tim@reidscrew.com](mailto:tim@reidscrew.com) or contact your agency representative if you are interested in participating.
